Members of the Board:

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Midlothian Independent School District, Midlothian Texas (the District) as of and for the year ended June 30, 2008, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's administrators. Our responsibility is to express an opinion on them based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of governmental activities, each major fund, and the aggregate remaining fund information of Midlothian Independent School District as of June 30, 2008, and the respective changes in financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Management's discussion and analysis on pages 3 through 9 and the budgetary comparison information on pages 42 and 58 through 59 are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

In accordance with *Government Auditing Standards*, we have also issued our report dated August 25, 2008 on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Governmental Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the basic financial statements. The combining and individual nonmajor fund financial statements and the T.E.A. required schedules listed in the table of contents are presented for additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards, combining and individual nonmajor fund financial statements and the T.E.A. required schedules (except for Exhibit G-3, the Fund Balance and Cash Flow Calculation Worksheet, which is marked UNAUDITED and on which we express no opinion) have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

## MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of the **Midlothian Independent School District** annual financial report presents our discussion and analysis of the District's financial performance during the fiscal period ended June 30, 2008. Please read it in conjunction with the District's financial statements, which follow this section.

### OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of a series of financial statements. The government-wide financial statements include the Statement of Net Assets (Exhibit A-1, page 12) and the Statement of Activities (Exhibit B-1, page 13). These provide information about the activities of the District as a whole and present a longer-term view of the District's property and debt obligations and other financial matters. They reflect the flow of total economic resources in a manner similar to the financial reports of a business enterprise.

Fund financial statements (starting with Exhibit C-1, pages 14-15) report the District's operations in more detail than the government-wide statements by providing information about the District's most significant funds. For governmental activities, these statements tell how services were financed in the short term as well as what resources remain for future spending. They reflect the flow of current financial resources, and supply the basis for tax levies and the appropriations budget. The remaining statements, fiduciary statements, provide financial information about activities for which the District acts solely as a trustee or agent for the benefit of those outside of the District.

The notes to the financial statements (starting on page 22, following Exhibit D-1) provide narrative explanations or additional data needed for full disclosure in the government-wide statements of the fund financial statements.

The combining statements for nonmajor funds contain even more information about the District's individual funds. These are not required by TEA (Texas Education Agency) and are contained in Exhibits F-1 and F-2, pages 44-51.

The sections labeled "Required T.E.A. Schedules" and "Federal Awards Section" contain data used by monitoring or regulatory agencies for assurance that the District is using funds supplied in compliance with the terms of grants.

### REPORTING THE DISTRICT AS A WHOLE

#### *Government-wide Statements: The Statement of Net Assets and the Statement of Activities*

The government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The Statement of Net Assets, Exhibit A-1, includes all of the government's assets and liabilities. The Statement of Activities, Exhibit B-1, accounts for all of the current period's revenues and expenses.

The two government-wide statements report the District's *net assets* and how they have changed. Net assets, the difference between the District's assets and liabilities, is one way to measure the District's financial health or position.

- Over time, increases or decreases in the District's net assets are an indicator of whether its financial health is improving or deteriorating, respectively.
- To assess the overall financial health of the District, one should consider additional non-financial factors such as changes in the District's tax base.

Within the government-wide financial statements of the District, most of the District's basic services are included, such as instruction, extracurricular activities, curriculum and staff development, health services, and general administration. Property taxes, grants and state revenues finance most of the activities.

## **REPORTING THE DISTRICT'S MOST SIGNIFICANT FUNDS**

### ***Fund Financial Statements***

The fund financial statements provide more detailed information about the District's most significant funds, not the District as a whole. Funds are accounting devices that the District uses to keep track of specific sources of funding and spending for particular purposes.

- Some funds are required by State law and bond covenants.
- Other funds are established to control and manage money for particular purposes or to show that the District is properly using certain taxes and grants.

The District has two kinds of funds:

- *Governmental funds* – Most of the District's basic services are reported in governmental funds. These use modified accrual accounting (a method that measures the receipt and disbursement of cash and all other financial assets that can be readily converted to cash) and report balances at the end of the fiscal period. The governmental funds statements provide a detailed, short-term view of the District's general operations and the basic services it provides. The differences between governmental activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds is described in reconciliation narratives following each of the fund financial statements. (See Exhibits C-2 and C-4, pages 17 and 20)
- *Fiduciary funds* – The District is the trustee, or *fiduciary*, for money raised by student activities and alumnae scholarship programs. All of the District's fiduciary activities are reported in the Statement of Fiduciary Net Assets. We exclude these resources from the District's other financial statements because the District cannot use these assets to finance its operations. The District is only responsible for ensuring that the assets reported in these funds are used for their intended purposes.

## **FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE**

The District implemented GASB Statement #34 in the period ended August 31, 2002. As a result, the reader will find comparative information concerning the fiscal years ended June 30, 2008 and June 30, 2007.

**Net assets.** (See Table A-1, next page). The District's combined net assets were \$5,031,565 on June 30, 2008, compared to \$4,453,329 at June 30, 2007. Assets increased due to additions and improvements of Capital Assets including buildings, equipment, buses, and vehicles. Liabilities increased as debt was issued in the fiscal year to provide funding for construction of a new agricultural science facility. The District continued to book a receivable from the state and accrue a liability due to the Midlothian Development Authority for the adverse effects of the 2006 tax changes made by the Texas Legislature.

**Governmental Activities** (Table A-2, next page)

- Property tax rates decreased from the prior year, to \$1.3675 per \$100 of taxable value. The rise in property values was not sufficient to combat the significant drop in tax rates, overall tax revenues decreased \$5,145,243.
- The increase in state funding of \$12,186,046 was mainly due to the changes in methods of calculating state aid, although student enrollment did increase for the year.
- Investment earnings were down sharply due to drop in interest rates throughout the year.
- Expenses overall increased at a lower percentage than revenue increased allowing an addition to net assets.
- Debt service costs increased slightly due to issuing new debt.

Table A-3 on the next page presents the cost of each of the District's largest functions as well as each function's *net cost* (total cost less fees generated by the activities and intergovernmental aid). The net cost reflects what was funded by state revenues as well as local tax dollars.

- The cost of all governmental activities this period was \$74,025,112.
- The amount that our taxpayers paid for these governmental activities through property taxes was \$40,869,838.
- Some of the cost (\$2,638,716) was paid by those who directly benefited from the programs, or
- By grants and contributions \$5,157,633.

**FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS**

As the District completed the period, its governmental funds (as presented in the balance sheet on Exhibit C-1, pages 14-15) reported a combined fund balance of \$34,585,115, as compared to a fund balance ending June 30, 2007 of \$54,858,281. The decrease in fund balance is primarily due to a \$23,243,911 decrease in the fund balance of the Capital Projects Fund, a \$842,083 decrease in the Debt Service Fund offset by a \$3,636,226 increase in the General Fund.

**General Fund Budgetary Highlights**

During the course of the period, the District reviews and revises its budget on a monthly basis in accordance with TEA FARG standards. General Fund revenues for the fiscal period ended June 30, 2008 exceeded budget by \$2,312,837. This was due to earned state revenues and property taxes collected being higher than initially projected.

Expenditures were under budget by \$1,323,389. While we had formally budgeted no increase to fund balance, as a result of expenditures being less than projected our fund balance this year increased to \$15,702,987 from last year's \$12,066,761, an increase of \$3,636,226. At the end of fiscal year 2007, the ending fund balance of \$12.07 million represented 21.9% of the initial 2007-2008 operating budget. At fiscal year-end 2008, the ending fund balance of \$15.7 million represented 27.1% of the 2008-2009 operating budget. Because our fiscal year now begins in July, a larger fund balance is needed than when our fiscal year began on September 1, as we operate for a longer period of time during the fiscal year before we receive state aid and tax revenues for that year.

**CAPITAL ASSETS AND DEBT ADMINISTRATION**

At the end of fiscal year 2008, the District had invested \$212,345,755 in a broad range of capital assets, including land, equipment, buildings, and construction in progress. (See Table A-4, below.) Additional information on capital assets is contained in Note 4, Section E of the Notes to the Financial Statements.

	<u>2008</u>	<u>2007</u>	<u>Percentage Change</u>
Land	\$ 4,729,817	4,706,480	0.5%
Buildings and improvements	133,763,418	128,856,353	3.8%
Construction in progress	67,183,169	48,459,492	38.6%
Furniture & Equipment	2,693,673	2,030,309	32.7%
Vehicles	<u>3,975,678</u>	<u>3,087,146</u>	28.8%
Totals at historical cost	212,345,755	187,139,780	13.5%
Total accumulated depreciation	<u>47,772,881</u>	<u>44,450,670</u>	7.5%
Net capital assets	\$ 164,572,874	142,689,110	15.3%

At the 2008 period-end, the District had \$190,966,274 in bonds and lease obligations outstanding (see Table A-5 below) as compared to \$190,146,046 at the 2007 year-end. Additional information on these items can be found in Note 4, Sections G and H, of the Notes to the Financial Statements.

	<b>Governmental Activities</b>		<b>% Change</b>
	<u>2008</u>	<u>2007</u>	
Lease Obligations (at Present Value) \$	1,948,796	2,078,384	(6.2%)
Bonds Payable	<u>189,017,478</u>	<u>188,067,662</u>	0.5%
Total Bonds & Leases Payable	\$ 190,966,274	190,146,046	0.4%

The District's bonds presently carry "Aaa" ratings, with underlying ratings as follows:

Moody's Investor Services	"A2"
Fitch	"A-"

**ECONOMIC FACTORS AND NEXT YEAR’S BUDGETS AND RATES**

- Appraised value used for the 2008-09 budget preparation has increased approximately \$211.5 million, which represents an increase of 8.9% from 2007-08 budget values.
- The District’s 2008-09 refined average daily attendance is expected to be approximately 6,801, which represents a 5.1% increase over 2007-08.

These indicators were taken into account when adopting the general fund budget for fiscal 2009. Revenues available for appropriation in the general fund budget (net of Tax Increment Reinvestment Zone, or TIRZ, pass-through revenues) are \$50,303,977, a decrease from the actual 2007-08 revenues of \$50,485,475. Salaries comprise approximately 80% of the General fund expenditure budget, and these are expected to increase during the coming fiscal year due to additional staff and personnel needed for the increased enrollment. Other operating expenditures (such as utilities, maintenance, security, etc.) can also be expected to increase with the additional projected enrollment. The District has budgeted a balanced budget (wherein revenues equal expenditures, with no increase or decrease to fund balance) for the 2008-09 fiscal year. The Maintenance and Operating (M&O) tax rate remain the same next year, due to legislation passed in the summer of 2006. The Interest & Sinking (I&S) tax rate is anticipated to increase \$0.04 in 2008-09.

RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE  
STATEMENT OF NET ASSETS  
JUNE 30, 2008

<b>Total Fund Balances - Governmental Funds</b>	\$	34,585,115
<b>1</b> Capital assets used in governmental activities are not financial resources and therefore are not reported in governmental funds. At the beginning of the year, the cost of these assets was \$187,139,780 and the accumulated depreciation was \$44,450,670. In addition, long-term liabilities, including bonds payable of \$168,307,391 and capital leases payable of \$2,078,384, are not due and payable in the current period, and, therefore are not reported as liabilities in the funds. The net effect of including the beginning balances for capital assets (net of depreciation) and long-term debt in the governmental activities is to decrease net assets.		(27,696,665)
<b>2</b> Current year capital outlays of \$25,205,975 and long-term debt principal payments of \$1,777,848 are expenditures in the fund financial statements, but they should be shown as increases in capital assets and reductions in long-term debt in the government-wide financial statements. The net effect of including the current year capital outlays and debt principal payments is to increase net assets.		26,983,823
<b>3</b> Accrued interest payable on long-term debt is not included on the fund financial statements, but is shown on the government-wide financial statements. The effect of including accrued interest payable is to decrease net assets.		(2,923,843)
<b>4</b> Accreted interest on capital appreciation bonds is not included on the fund financial statements, but is shown on the government-wide financial statements. The effect of including accreted interest is to decrease net assets.		(19,858,347)
<b>5</b> The current year depreciation expense increases accumulated depreciation. The net effect of the current year's depreciation is to decrease net assets.		(3,322,211)
<b>6</b> Various other reclassifications and eliminations are necessary to convert from the modified accrual basis of accounting to accrual basis of accounting. These include recognizing deferred revenue as revenue, eliminating interfund transactions, reclassifying the proceeds of bond sales as an increase in bonds payable, and recognizing the liabilities associated with maturing long-term debt and interest. The net effect of these reclassifications and recognitions is to decrease net assets.		(2,736,307)

## **NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Midlothian Independent School District (the "District") is a public educational agency operating under the applicable laws and regulations of the State of Texas. It is governed by a seven member Board of Trustees (the "Board") elected by registered voters of the District. The District prepares its basic financial statements in conformity with accounting principles generally accepted in the United States of America promulgated by the Governmental Accounting Standards Board and other authoritative sources identified in ***Statement on Auditing Standards No. 69*** of the American Institute of Certified Public Accountants, and it complies with the requirements of the appropriate version of Texas Education Agency's ***Financial Accountability System Resource Guide*** (the "Resource Guide") and the requirements of contracts and grants of agencies from which it receives funds.

### **A. Reporting Entity**

The Board is elected by the public and it has the authority to make decisions, appoint administrators and managers, and significantly influence operations. It also has the primary accountability for fiscal matters. Therefore, the District is a financial reporting entity as defined by the Governmental Accounting Standards Board ("GASB") in its Statement No. 14, "The Financial Reporting Entity." There are no component units included within the reporting entity.

### **B. Government-wide and Fund Financial Statements**

The government-wide financial statements (i.e., the Statement of Net Assets and the Statement of Activities) report information on all of the non-fiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

### **C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation**

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the fiduciary fund financial

statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the period for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. With this measurement focus, only current assets, current liabilities and fund balances are included on the balance sheet. Operating statements of these funds present net increases and decreases in current assets (i.e., revenues and other financing sources and expenditures and other financing uses).

The modified accrual basis of accounting recognizes revenues in the accounting period in which they become both measurable and available, and it recognizes expenditures in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest and principal on long-term debt, which is recognized when due. The expenditures related to certain compensated absences and claims and judgements are recognized when the obligations are expected to be liquidated with expendable available financial resources. The District considers all revenues available if they are collectible within 60 days after year end.

Revenues from local sources consist primarily of property taxes. Property tax revenues and revenues received from the State are recognized under the susceptible to accrual concept, that is, when they are both measurable and available. The District considers them "available" if they will be collected within 60 days of the end of the fiscal year. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available.

Grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant. Accordingly, when such funds are received, they are recorded as deferred revenues until related and authorized expenditures have been made. If balances have not been expended by the end of the project period, grantors sometimes require the District to refund all or part of the unused amount.

The Fiduciary Funds are accounted for on a flow of economic resources measurement focus and utilize the accrual basis of accounting. This basis of accounting recognizes revenues in the accounting period in which they are earned and become measurable and expenses in the accounting period in which they are incurred and become measurable. The District applies all GASB pronouncements as well as the Financial Accounting Standards Board pronouncements issued on or before November 30, 1989, unless these pronouncements conflict or contradict GASB pronouncements. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the fund Statement of Net Assets. The fund equity is segregated into invested in capital assets net of related debt, restricted net assets, and unrestricted net assets.

**NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** (continued)

**D. Fund Accounting**

The District reports the following major governmental funds:

1. **General Fund** - The general fund is the District's primary operating fund. It accounts for all financial resources except those required to be accounted for in another fund.
2. **Debt Service Fund** - The District accounts for resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds in a debt service fund.
3. **Capital Projects Fund** - The proceeds from long-term debt financing and revenues and expenditures related to authorized construction and other capital asset acquisitions are accounted for in a capital projects fund.

Additionally, the District reports the following fund types:

Governmental Funds:

1. **Special Revenue Funds** - The District accounts for resources restricted to, or designated for, specific purposes by the District or a grantor in a special revenue fund. Most Federal and some State financial assistance is accounted for in a Special Revenue Fund, and sometimes unused balances must be returned to the grantor at the close of specified project periods.

Fiduciary Funds:

2. **Agency Funds** - The District accounts for resources held for others in a custodial capacity in agency funds.

**E. Assets, Liabilities, and Net Assets or Equity**

**1. Deposits and Investments**

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

**2. Due From (To) Other Funds**

Interfund receivables and payables arise from interfund transactions and are recorded in all affected funds in the period in which transactions are executed in the normal course of operations.

**3. Inventories and Prepaid Items**

The consumption method is used to account for inventories of food products, school supplies and athletic equipment. Under this method, these items are carried in an inventory account of the respective fund at cost, using the first-in, first-out method of accounting and are subsequently charged to expenditures when consumed. In the General Fund, reported inventories are offset by a fund balance reserve indicating that they are unavailable as current expendable financial resources.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

**4. Capital Assets**

Capital assets, which include property, plant, and equipment, are reported in the applicable governmental activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed.

Property, plant, and equipment of the district is depreciated using the straight line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings	40
Building improvements	20
Vehicles	10
Office equipment	7
Computer equipment	5

**5. Vacation and Sick Leave**

Vacations are to be taken within the same year they are earned, and any unused days at the end of the year are forfeited. Therefore, no liability has been accrued in the accompanying basic financial statements. Employees of the District are entitled to sick leave based on category/class of employment. Sick leave is allowed to be accumulated but does not vest. Therefore, a liability for unused sick leave has not been recorded in the accompanying basic financial statements.

**6. Long-term Obligations**

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities or business-type activities. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

**7. Fund Equity**

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change. As of June 30, 2008, Reserved Fund Balance includes \$40,125 for inventories, \$43,494 for prepaid items, and \$86,336 for outstanding encumbrances in the General Fund. Debt Service Fund reserves total \$4,327,987 for retirement of funded indebtedness as of June 30, 2008. A total of \$13,479,792 has been designated for authorized construction programs in the Capital Projects Fund and \$6,576,000 in the General Fund, with additional General Fund designations of \$328,000 for other purposes. The Special Revenue Fund reserves total \$332,468 for Food Service.

**8. Data Control Codes**

The Data Control Codes refer to the account code structure prescribed by T.E.A. in the *Financial Accountability System Resources Guide*. Texas Education Agency requires school districts to display these codes in the financial statements filed with

the Agency in order to insure accuracy in building a Statewide data base for policy development and funding plans.

9. School Districts are required to report all expenses by function, except certain indirect expenses. General administration and data processing service functions (data control codes 41 and 53, respectively) include expenses that are indirect expenses of other functions. These indirect expenses are not allocated to other functions.

**NOTE 2 RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS**

**A. Explanation of Certain Differences Between the Governmental Fund Balance Sheet and the Government-Wide Statement of Net Assets**

Exhibit C-2 provides a reconciliation between *fund balance - total governmental funds* and *net assets - governmental activities* as reported in the government-wide statement of net assets. One element of that reconciliation explains that “various other reclassifications and eliminations are necessary to convert from the modified accrual basis of accounting to the full accrual basis of accounting.” The details of this \$(2,736,307) adjustment are as follows:

**NOTE 3 STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY**

**A. Budgetary Data**

The Board of Trustees adopts an “appropriated budget” for the General Fund, Debt Service Fund and the Food Service Fund which is included in the Special Revenue Funds. The District is required to present the adopted and final amended budgeted revenues and expenditures for each of these funds. The District compares the final amended budget to actual revenues and expenditures. The General Fund Budget report appears in Exhibit E-1 and the other two reports are in Exhibit G-4 and G-5.

The following procedures are followed in establishing the budgetary data reflected in the basic financial statements:

1. Prior to June 19, the District prepares a budget for the next succeeding fiscal period beginning July 1. The operating budget includes proposed expenditures and the means of financing them.
2. A meeting of the Board is then called for the purpose of adopting the proposed budget. At least ten days’ public notice of the meeting must be given.
3. Prior to July 1, the budget is legally enacted through passage of a resolution by the Board. Once a budget is approved, it can only be amended at the function and fund

level by approval of a majority of the members of the Board. Amendments are presented to the Board at its regular meetings. Each amendment must have Board approval. As required by law, such amendments are made before the fact, are reflected in the official minutes of the Board and are not made after fiscal year end. The budget was properly amended throughout the period by the Board of Trustees.

4. Each budget is controlled by the budget coordinator at the revenue and expenditure function/object level. Budgeted amounts are as amended by the Board. All budget appropriations lapse at year end. A reconciliation of fund balances for both appropriated budget and nonappropriated budget special revenue funds is as follows:

June 30, 2008 Fund Balance

Appropriated budget funds - Food Service Special Revenue Fund	\$ 332,468
Nonappropriated budget funds	<u>741,881</u>
All Special Revenue Funds	<u>\$ 1,074,349</u>

**B. Encumbrance Accounting**

The District employs encumbrance accounting, whereby encumbrances for goods or purchased services are documented by purchase orders and contracts. An encumbrance represents a commitment or Board appropriation related to unperformed contracts for goods and services. The issuance of a purchase order or the signing of a contract creates an encumbrance but does not represent an expenditure for the period, only a commitment to expend resources. Appropriations lapse at June 30 and encumbrances outstanding at that time are either canceled or appropriately provided for in the subsequent period's budget. At June 30, 2008, there were outstanding encumbrances of \$86,336 in the General Fund.

**NOTE 4 DETAILED NOTES ON ALL FUNDS**

**A. Deposits and Investments**

The funds of the District must be deposited and invested under the terms of a contract, contents of which are set out in the **Depository Contract Law**. The depository bank places approved pledged securities for safekeeping and trust with the District's agent bank in an amount sufficient to protect District funds on a day-to-day basis during the period of the contract. The pledge of approved securities is waived only to the extent of the depository bank's dollar amount of Federal Deposit Insurance Corporation ("FDIC") insurance.

**A. Deposits and Investments** (continued)

At June 30, 2008, the carrying amount of the District's cash, savings, and time deposits was \$490,727. The bank balance was \$1,874,493. The District's combined deposits at June 30, 2008, and during the year ended June 30, 2008, were fully insured by federal depository insurance or collateralized with securities pledged to the District and held by the District's agent.

In addition the following is disclosed regarding coverage of combined balances on the date of highest deposit:

- a. Name of bank First Financial Bank, Cleburne, Texas.
- b. Amount of bond and securities pledged as of the date of the highest combined balance on deposit was \$ 8,770,155.
- c. The highest combined balances of cash, savings, and time deposit accounts amounted to \$2,581,559 and occurred during the month of October.
- d. Total amount of FDIC coverage at the time of highest combined balance was \$ 100,000.

The **Public Funds Investment Act** (Government Code Chapter 2256) contains specific provisions in the areas of investment practices, management reports and establishment of appropriate policies. Among other things, it requires the District to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, and (9) bid solicitation preferences for certificates of deposit. Statutes authorize the District to invest in (1) obligations of the U.S. Treasury, certain U.S. agencies, and the State of Texas; (2) certificates of deposit; (3) certain municipal securities; (4) money market savings account; (5) repurchase agreements, (6) bankers acceptances, (7) Mutual Fund; (8) Investment pools; (9) guaranteed investment contracts; and (10) common trust funds. The Act also requires the District to have independent auditors perform test procedures related to investment practices as provided by the Act. The District is in substantial compliance with the requirements of the Act and with local policies.

In compliance with the Public Funds Investment Act, the District has adopted a deposit and investment policy. That policy addresses the following risks:

- a. **Custodial Credit Risk - Deposits:** In the case of deposits this is the risk that, in the event of a bank failure, the District's deposits may not be returned to it. The District's policy regarding types of deposits allowed and collateral requirements is: the Depository may be a state bank authorized and regulated under Texas law; a national bank, savings and loan association, or savings bank authorized and regulated by federal law; or a savings and loan association or savings bank organized under Texas law; but shall not be any bank the deposits of which are not insured by the Federal Deposit Insurance Corporation (FDIC). The District is not exposed to custodial credit risk for its deposits, as all are covered by depository insurance and pledged securities.

- b. **Custodial Credit Risk - Investments:** For an investment, this is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The District investments are with the Texas Local Government Investment Pool ("TexPool"), and the Lone Star Investment Pool ("Lone Star"). The pools are public funds investment pools created to provide a safe environment for the placement of local government funds in authorized short-term investments. Local investment pools operate in a manner consistent with the Security and Exchange Commission's Rule 2a7 of the Investment Company Act of 1940. The Texas Comptroller of Public Accounts exercises oversight responsibility over TexPool. Administration of Lone Star is performed by a Board of Directors, which is an administrative agency created under the Interlocal Act. The District is not exposed to custodial credit risk for its investments.
- c. **Credit Risk -** This is the risk that an issuer of an investment will be unable to fulfill its obligations. The rating of securities by nationally recognized rating agencies is designed to give an indication of credit risk. The credit quality rating for TexPool at year end was AAAM by Standard & Poor's. The credit quality rating for Lone Star at year end was Aaa by Moody's Investor Service.
- d. **Interest Rate Risk -** This is the risk that changes in interest rates will adversely affect the fair value of an investment. The District manages its exposure to declines in fair values by limiting the weighted average maturity of its investment portfolio to less than one year from the time of purchase. The weighted average maturity for the District's investment in external investment pools is less than 60 days.
- e. **Foreign Currency Risk -** This is the risk that exchange rates will adversely affect the fair value of an investment. The District is not exposed to foreign currency risk.
- f. **Concentration of Credit Risk -** This is the risk of loss attributed to the magnitude of the District's investment in a single issuer (i.e., lack of diversification). Concentration risk is defined as positions of 5 percent or more in the securities of a single issuer. Investments issued by the U. S. Government and investments in investment pools are excluded from the 5 percent disclosure requirement. The District is not exposed to concentration of credit risk.

The District's temporary investments at June 30, 2008, were as follows:

<u>Investment type:</u>	<u>Fair Value</u>
Lone Star investment pool	\$ 1,805,502
TexPool investment pool	<u>37,145,745</u>

**B. Property Taxes**

Property taxes are considered available when collected within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period. The District levies its taxes on October 1 in conformity with Subtitle E, Texas Property Tax Code. Taxes are due upon receipt of the tax bill and are past due and subject to interest if not paid by February 1 of the period following the October 1 levy date. The assessed value of the property tax roll on August 1, 2007, upon which the levy for the 2007-08 fiscal period was based, was \$2,990,843,973. The roll was subsequently decreased to a period end assessed value of \$2,981,308,010. Taxes are delinquent if not paid by January 31. Delinquent taxes are subject to both penalty and interest charges plus 20% delinquent collection fees for attorney costs after August 31.

The tax rates assessed for the year ended June 30, 2008, to finance General Fund operations and the payment of principal and interest on general obligation long-term debt were \$1.04 and \$0.3275 per \$100 valuation, respectively, for the total of \$1.3675 per \$100 valuation.

Total tax collections for the year ended June 30, 2008 were 101% of the period end adjusted tax levy. Delinquent taxes are prorated between maintenance and debt service based on rates adopted for the year of the levy. Allowances for uncollectible taxes within the General and Debt Service Funds are based on historical experience in collecting taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the District is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature. As of June 30, 2008, property taxes receivable, net of estimated uncollectible taxes, totaled \$1,420,030 and \$340,370 for the General and Debt Service Funds, respectively.

**C. Due From Other Governments**

The District participates in a variety of federal and state programs from which it receives grants to partially or fully finance certain activities. In addition, the District receives entitlements from the State through the School Foundation and Per Capita Programs. Amounts due from federal and state governments as of June 30, 2008, are summarized below. All federal grants shown below are passed through the TEA and are reported on the combined financial statements as Due from Other Governments.

**I. Defeasance of Debt**

In prior years, the District defeased previously issued and outstanding bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the District's financial statements. On June 30, 2008, \$2,074,783 of the bonds outstanding are considered defeased.

**NOTE 5 OTHER INFORMATION**

**A. Risk Management**

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During fiscal 2008, the District purchased commercial insurance to cover general liabilities. There were no significant reductions in coverage in the past fiscal year, and there were no settlements exceeding insurance coverage for each of the past three fiscal years.

**B. Litigation and Contingencies**

The District is a party to various legal actions none of which is believed by administration to have a material effect on the financial condition of the District. Accordingly, no provision for losses has been recorded in the accompanying combined financial statements for such contingencies.

The District participates in numerous state and federal grant programs which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the District has not complied with the rules and regulations governing the grants, if any, refunds of any money received may be required and the collectability of any related receivable at June 30, 2008 may be impaired. In the opinion of the District, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying combined financial statements for such contingencies.

**D. Deferred Revenue**

Governmental funds report *deferred revenue* in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current year. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of *deferred revenue* reported in the governmental funds were as follows:

	<u>General Fund</u>	<u>Special Revenue Fund</u>	<u>Debt Service Fund</u>	<u>Total</u>
Net tax revenue	\$ 1,420,030		340,370	1,760,400

**E. Health Care Coverage**

For the year ended June 30, 2008, employees of the District were covered by a health insurance plan (the plan). The District paid premiums of \$225 per month per employee to the plan and employees, at their option, authorized payroll withholdings to pay premiums for dependents. All premiums were paid to licensed insurer. The plan was authorized by Article 3.51-2., Texas Insurance Code, and was documented by contractual agreement.

The contract between the District and the licensed insurer is renewable September 1, 2008 and terms of coverage and premium costs are included in the contractual provisions.

Latest financial statements for the Blue Cross Blue Shield are available for the year ended December 31, 2007, are filed with the Texas State Board of Insurance, Austin, Texas and are public records.

**NOTE 5 OTHER INFORMATION** (continued)

**F. Pension Plan Obligations**

Plan Description - The District contributes to the Teacher Retirement System of Texas (TRS), a cost-sharing multiple employer defined benefit pension plan. TRS administers retirement and disability annuities, and death and survivor benefits to employees and beneficiaries of employees of the public school systems of Texas. It operates primarily under the provisions of the Texas Constitution, Article XVI, Sec. 67, and Texas Government Code, Title 8, Subtitle C. TRS also administers proportional retirement benefits and service credit transfer under Texas Government Code, Title 8, Chapters 803 and 805, respectively. The Texas state legislature has the authority to establish and amend benefit provisions of the pension plan and may, under certain circumstances, grant special authority to the TRS Board of Trustees. TRS issues a publicly available financial report that includes financial statements and required supplementary information for the defined benefit pension plan. That report may be obtained by writing to the TRS Communications Department, 1000 Red River Street, Austin, Texas 78701, by calling the TRS Communications Department at 1-800-223-8778, or by downloading the report from the TRS Internet website, [www.trs.state.tx.us](http://www.trs.state.tx.us), under the TRS Publications heading.

Funding Policy - Contribution requirements are not actuarially determined but are established and amended by the Texas state legislature. The state funding policy is as follows: (1) The state constitution requires the legislature to establish a member contribution rate of not less than 6.0% of the member's annual compensation and a state contribution rate of not less than 6.0% and not more than 10% of the aggregate annual compensation of all members of the system; (2) A state statute prohibits benefit improvements or contribution reductions if, as a result of the particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action. State law provides for a member contribution rate of 6.4% for fiscal year 2006, 2007 and 2008 and a state contribution rate of 6.0% for fiscal years 2006 and 2007 and 6.58% for fiscal year 2008. In certain instances the reporting district is required to make all or a portion of the state's 6.00% contribution for fiscal years 2006 and 2007 and 6.58% for fiscal year 2008. State contributions to TRS made on behalf of the District's employees for the years ended June 30, 2006, 2007 and 2008 were \$1,612,253, \$1,787,608, and \$2,048,754, respectively. The District paid additional state contributions for the years ended June 30, 2006, 2007 and 2008 in the amount of \$141,817, \$221,167, and \$313,789, respectively, on the portion of the employees' salaries that exceeded the statutory minimum.

**G. Retiree Health Plan**

Plan Description - The District contributes to the Texas Public School Retired Employees Group Insurance Program (TRS-Care), a cost-sharing multiple-employer defined benefit postemployment health care plan administered by the Teacher Retirement System of Texas. TRS-Care Retired Plan provides health care coverage for certain persons (and their dependents) who retired under the Teacher Retirement System of Texas. The statutory authority for the program is Texas Insurance Code, Chapter 1575. Section 1575.052 grants the TRS Board of Trustees the authority to establish and amend basic and optional group insurance coverage for participants. The TRS issues a publicly available financial report that includes financial statements and required supplementary information for TRS-Care. That report may be obtained by visiting the TRS Web site at [www.trs.state.tx.us](http://www.trs.state.tx.us), by writing to the Communications Department of the Teacher Retirement System of Texas at 1000 Red River Street, Austin, Texas 78701, or by calling 1-800-223-8778.

Funding Policy - Contribution requirements are not actuarially determined but are legally established each biennium by the Texas Legislature. Texas Insurance Code, Sections 1575.202, 203, and 204 establish state, active employee, and public school contributions, respectively. The State of Texas and active public school employee contribution rates were 1.0% and 0.65% of public school payroll, respectively, with school districts contributing a percentage of payroll set at 0.55% for fiscal years 2006, 2007, and 2008. Per Texas Insurance Code, Chapter 1575, the public school contribution may not be less than 0.25% or greater than 0.75% of the salary of each active employee of the public school. For the years ended August 31, 2006, 2007, and 2008, the State's contributions to TRS-Care were \$253,820, \$302,842, and \$331,841, respectively, the active member contributions were \$164,983, \$196,847, and \$215,697, respectively, and the school district's contributions were \$139,601, \$166,563, and \$182,513, respectively, which equaled the required contributions each year.

**H. Workers' Compensation Insurance**

The District was a participant in the East Texas Educational Insurance Association (ETEIA), a public entity risk pool from July 1, 2007 through August 31, 2007. The District paid premiums to ETEIA for its workers' compensation insurance. The ETEIA has obtained reinsurance from Safety National Casualty Corporation for claims exceeding \$225,000. At June 30, 2008, the District's unpaid claims total \$151,652, including incurred but not reported (IBNR) claims of \$134,609, estimated. The District has reported this as a liability in the General Fund.

Changes in the balances of claims liability amounts in periods 2007 and 2008 are as follows:

	<u>2007</u>	<u>2008</u>
Unpaid claims, beginning of period	\$ 329,285	251,871
Incurred claims (including IBNR)	(4,172)	(70,570)
Claim payments	<u>(73,242)</u>	<u>(29,649)</u>
Unpaid claims, end of period	<u>\$ 251,871</u>	<u>151,652</u>

**H. Workers' Compensation Insurance** (continued)

From September 1, 2007 through June 30, 2008, the District met its statutory workers' compensation obligations through participation in the TASB Risk Management Fund (the Fund). The Fund was created and is operated under the provisions of the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code. The Fund's Workers Compensation Program is authorized by Chapter 504, Texas Labor Code. All districts participating in the Fund execute Interlocal Agreements that define the responsibilities of the parties. The Fund provides statutory workers' compensation benefits to its districts and their injured employees.

The District participates in the Fund's reimbursable aggregate deductible program. As such, the District is responsible for a certain amount of claims liability as outlined on the District's Contribution and Coverage Summary document. After the District's deductible has been met, the Fund is responsible for additional claims.

The Fund and its districts are protected against higher than expected claims costs through the purchase of stop loss coverage for any claim in excess of the Fund's self-insured retention of \$1.5 million. The Fund uses the services of an independent actuary to determine reserve adequacy and fully funds those reserves. As of August 31, 2007, the Fund carries a discounted reserve of \$74,463,095 for future development on reported claims and claims that have been incurred but not yet reported. For the year ended August 31, 2007, the Fund anticipates no additional liability to districts beyond their contractual obligations for payment of contributions and reimbursable aggregate deductibles.

The Fund engages the services of independent auditors to conduct a financial audit after the close of each plan year on August 31. The audit is accepted by the Fund's Board of Trustees in February of the following year. The Fund's audited financial statements as of August 31, 2007, are available at the TASB offices and have been filed with the Texas Department of Insurance in Austin.

**I. State Funding for TIRZ**

The District participates in the Midlothian Development Authority Tax Increment Reinvestment Zone (TIRZ). As such, the District pays into the TIRZ the taxes collected on property in the TIRZ at a rate of \$1.50/\$100 valuation. The District anticipates reimbursement from the State for the difference between the actual maintenance and operations tax rate of \$1.04, and the amount paid to the TIRZ at the \$1.50 rate. As of June 30, 2008, the District has recorded a due from State receivable in the amount of \$2,944,920.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING  
AND ON COMPLIANCE BASED ON AN AUDIT OF BASIC FINANCIAL STATEMENTS  
PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

**INDEPENDENT AUDITOR'S REPORT**

Board of School Trustees  
**Midlothian Independent School District**  
100 Walter Stephenson Road  
Midlothian, Texas 75065

Members of the Board:

We have audited the basic financial statements of Midlothian Independent School District, Midlothian, Texas, as of and for the year ended June 30, 2008, and have issued our report thereon dated August 25, 2008. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States.

**Internal Control Over Financial Reporting**

In planning and performing our audit, we considered Midlothian Independent School District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the basic financial statements but not for the purpose of expressing an opinion on the effectiveness of Midlothian Independent School District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of Midlothian Independent School District's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency or combination of control deficiencies that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principals such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency or combination of significant deficiencies that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we considered to be material weaknesses as defined above.

Compliance

As part of obtaining reasonable assurance about whether Midlothian Independent School District's basic financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

This report is intended for the information of the District's trustees, the audit committee, the administration, the Texas Education Agency, and federal awarding agencies and pass-through entities, and is not intended to be used and should not be used by anyone other than these specified parties.

Members of the Board:

Compliance

We have audited the compliance of the Midlothian Independent School District, Midlothian, Texas with the types of compliance requirements described in the *U. S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2008. Midlothian Independent School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of Midlothian Independent School District's management. Our responsibility is to express an opinion on Midlothian Independent School District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Midlothian Independent School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on Midlothian Independent School District's compliance with those requirements.

In our opinion Midlothian Independent School District complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2008.

Internal Control Over Compliance

The administration of Midlothian Independent School District is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered Midlothian Independent School District's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion of the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A control deficiency in an entity's internal control over compliance exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A significant deficiency is a control deficiency or combination of control deficiencies that adversely affects the entity's ability to administer a federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency or a combination of significant deficiencies that results in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the entity's internal control.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses as defined above.

This report is intended for the information of the District's trustees, audit committee, administration, the Texas Education Agency, and federal awarding agencies and pass-through entities, and is not intended to be used and should not be used by anyone other than these specified parties.
